8. (Currently Amended) A method according to claim 1 [[3]] and comprising, at the video gateway, extracting H.245 control messages and forwarding these messages to said intelligent network node, the intelligent network node determining, on the basis of a DTMF signal or signals contained within the forwarded H.245 messages, an address of a packet switched data source to which the circuit switched connection should be connected, establishing a packet switched connection to that data source, and relaying the packet switched data to the video gateway.

Allowable Subject Matter

2. Claims 1, 2, 8-11 and 13-20 are allowed over prior art.

3. The following is an examiner's statement of reasons for allowance:

number located on a video gateway on the basis of a DTMF signal contained in an H.245 control message received at the Intelligent network node, **with respect to claim 15**, mapping the DTMF signals to associated telephone numbers terminating at video gateway, **with respect to claim 16**, mapping DTMF signals to an address of packet switched data sources and coupling the circuit switched connection to data source over a packet switched network, **with respect to claim 17**, receiving H.245 stream to recover H.223 messages containing DTMF control signals, and forwarding these H.223 control messages to a service node, **with respect to claim 18**, recovering from the H.245 control messages DTMF control signals provided by a user terminal, mapping DTMF control signals to an address, **with respect to claim 19**; routing circuit switched signaling to an Intelligent network, IN, node, with user initiated DTMF signals being contained within H.245 messages; and **with respect to claim 20**, at an intelligent network node, selecting a telephone number allocated to a video gateway, and sending a call setup message from an intelligent network node to a telephone number and establishing a circuit switched connection between a terminal and video gateway and at the video gateway identifying a packet switched network address associated with phone number.

Claims 2, 8-11, 13 and 14 depend on claim 1, therefore, claims 2, 8-11, 13 and 14 are allowed as well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
